

Adam's Vitality™ Product Specifications

Logos Nutritionals is proud to introduce **Adam's Vitality™**, a revolutionary new men's health supplement that provides comprehensive, high potency nutritional support for life-long prostate health as well as healthy urinary and sexual function.

Symptoms of Enlarged Prostate or Benign Prostatic Hyperplasia (BPH)

- **Reduced urine flow (a hesitant, interrupted weak stream)**
- **Frequent urge to urinate, especially at night**
- **Incomplete emptying of the bladder**
- **Post urination leaking or dribbling**
- **Diminished sexual function**
- **Decreased stamina**

As men reach their forties, an enzyme called *5-alpha reductase* begins increasingly to convert normal testosterone into a rogue form called DHT (dihydrotestosterone). Adding insult to injury, in some cases another enzyme called *aromatase* begins converting testosterone into the most potent form of the *female* hormone estrogen. The combined effect of these enzymes is to stimulate growth of the prostate gland until it eventually begins to pinch off the flow of urine through the urethra, the tube surrounded by the prostate that empties urine from the bladder. Left unchecked, the resulting hormonal overstimulation eventually results in calcification of the prostate gland and overgrowth that can lead to prostate cancer.

Adam's Vitality™ - What's in it For You?

Adam's Vitality is unique in that it contains herbal extracts that have been scientifically proven to nullify the effects of both *5-alpha reductase* and *aromatase* while providing phytonutrients that are critical to healthy prostate, urinary and sexual function. There simply is not a more comprehensive or effective prostate health formula available today!

Saw Palmetto (*Serenoa Repens*) – Has been shown in clinical trials to inhibit both *5-alpha reductase* and *aromatase*, blocking the production of DHT and estrogen.

Beta Sitosterol – Phytonutrient shown in trials to significantly enhance urinary function while reducing inflammation and cholesterol levels.

Pygeum Africanum – Helps improve urinary flow and bladder control, also inhibits both enzymes to block production of DHT and estrogen.

Stinging Nettle – Studies have shown that the root extract relieves urinary symptoms of BPH. Has anti-inflammatory and pain relieving effects, and also blocks both enzymes.

Lycopene - An antioxidant phytonutrient that is useful for the maintenance and support of healthy cells. Shown to have a protective effect against cancer by quenching free radicals.

Green Tea – Rich in catechin polyphenols, contains powerful antioxidant properties, lowers cholesterol and stimulates immunity.

Cat's Claw – Contains tannins, alkaloids and other phytonutrients that are known to stimulate immunity. Also has antioxidant and anti-inflammatory properties.

Medicinal Mushrooms (Maitake, Reishi and Shitake) – Renowned for their healing properties as immune stimulants, as well as their anti-inflammatory and tonic effects.

Critical Vitamins and Minerals for Prostate Support – Contains vitamin B6 and natural vitamin E as well as highly absorbed forms of the vital minerals zinc, copper and selenium. Zinc is crucial to immune function and reaches its highest concentrations in the body in the prostate. Studies suggest that vitamin E and selenium work synergistically in prostate cancer prevention.

Proprietary Blend - A synergistic blend of additional herbs and nutrients that are known to support prostate health.

Summary

Good health is about making good choices. According to research, if you live long enough you have a 90% chance of developing prostate problems. However, one simple choice – adding **Adam's Vitality** to your daily diet – can shatter those foreboding statistics and dramatically improve your quality of life. With the Logos *Unconditional Satisfaction Guarantee* you have nothing to lose but misery and frustration, so try a bottle of **Adam's Vitality** today!
