

Cholest Essentials™ Product Specifications

Designed to lower total cholesterol and support healthy fat metabolism, **Cholest Essentials™** contains some of the most well studied natural herbs and nutrients that are known to safely normalize blood lipid levels without the dangerous side effects of statin drugs. No-flush niacinamide, garlic, cayenne and policosanol have long been prized for their cholesterol lowering effects. More recent studies indicate that plant sterols and guggul sterones may also hold significant promise in reducing risk of heart disease by lowering cholesterol, triglycerides, and inflammation.

According to studies, for every five percent that blood cholesterol levels are reduced, there's an on-average two percent reduction in the risk of coronary heart disease. With the **Logos Satisfaction Guarantee** you have nothing to lose, so try a bottle of **Cholest Essentials™** today! We highly recommend adding **Ubinol™ CoQ10** to your order as well.
